

ries of impeachment questions. They all dealt with conversations in which it was alleged Orchard retracted his private grudge against Frank Steunenberg and vowed he would kill him if he were ever free. Orchard denied every query, both specifically and generally.

NOW EXPECTED THIS MORNING.

Ed Boyce, once president of the Western Federation of Miners, was the first of the group of the rich Hercules mine, came after Orchard and he was still on the stand when the court closed for the day. He was called to identify the Miners' Magazine as the official organ of the Federation and to pave the way for the use as evidence of a great number of articles from the magazine. The defense was given the articles for examination tonight, and the row over their admission will come first thing tomorrow morning.

To combat the theory that Orchard killed Steunenberg in revenge for his part of a valuable interest in the Hercules mine, the State obtained from Orchard a declaration that he sold his interests in the Hercules in 1927, two years before the strike and troops came. The defense attempted to modify this by getting the admission to admit that he had not sold his interest in the Hercules, but had pledged it and could have taken it back any time up to his death from North Idaho before the coming troops, but Orchard adhered to the statement that he had sold outright.

There was a long contest over an unsuccessful effort by the State to show that the confession of Steve Adams had been voluntary.

Orchard's testimony was concluded today and the self-confessed assassin was remanded to the penitentiary.

STORY OF CRIME COMES TO CLOSE.

HARRY ORCHARD IS REMANDED TO PENITENTIARY.

Self-Confessed Assassin of Gov. Steunenberg and of Many Others Completes His Testimony. Prisoner's Recantance Fails to Create Stir.

BOISE (Idaho) June 15.—All the members of the Haywood family were in their seats near the prisoner when the case against William D. Haywood was resumed this morning in the Ada District Court. During the intermission since the adjournment on Saturday a large number of witnesses had arrived in Boise. The courtroom was only about half filled, however, at the time court opened.

J. T. Nichols, who was Deputy Sheriff of Caden county and charged with the case against William D. Haywood, was the first witness. He testified that during the intermission since the adjournment on Saturday a large number of witnesses had arrived in Boise. The courtroom was only about half filled, however, at the time court opened.

Nichols testified that Fred Miller, a lawyer of Spokane, had called upon Orchard shortly after he was placed in the Caldwell jail. Miller is now one of the attorneys for the defense of Haywood. Nichols said that Orchard had not sent a telegram summoning Miller, but that he had received a telegram signed "W. D. Haywood."

A copy of the letter was produced and identified by the witness. Nichols was proceeding to tell of a conversation with Miller, when the defense raised objection after objection and argument, but the testimony was admitted. Nichols said that Miller told him that money sent to Orchard should be turned over to Miller as his attorney.

ORCHARD AGAIN TESTIFIES.

Nichols was allowed to go without any cross-examination, and Harry Orchard was called. The notorious prisoner-witness entered the courtroom through the door leading to the judge's room. His appearance created no interest of the interest that marked his first entry into court. He came in with his customary brisk step, and proceeded and followed by deputies and "gun men."

E. P. Richardson at once commenced the cross-examination. It became evident that the defense proposed to bring a number of questions to prove that Orchard had for years nursed a vengeful spite against Steunenberg and had repeatedly made threats against him.

"Do you know Max Mulish of Denver?" asked Mr. Richardson.

"Yes, sir."

"Did you, in June or July, 1905, say to Max Mulish, you and he being alone, that you were going to kill Steunenberg even if you had to swing for it?"

"No, sir; I never had any such conversation."

Senator Borah asked if he couldn't place the time closer than June or July, 1905.

"No man can fix the exact day of such an occurrence," said Mr. Richardson, somewhat hotly.

"We will have Max Mulish here and he may fix it for you, but it is not likely that he can give you the date of the conversation."

"Did you say that Steunenberg was a man — and that, had it not been for Steunenberg, you would have been a millionaire because you had owned a sixth share of the Hercules mine, and that Steunenberg had driven you out of the State?"

"No, sir; I never said any such thing."

Orchard was very positive in his replies and showed no hesitation.

Mr. Richardson asked him if he knew Lottie Day of Denver, and remembered meeting her in a room at the Belmont Hotel, and told her that he intended to kill Steunenberg. This, also, Orchard denied.

CONTINUES HIS DENIALS.

Orchard was asked if he had not made similar threats in the hearing and presence of "Kid" Walters of Cripple Creek, and others. He was asked if he had not told Dr. J. S. McGee, formerly of Wallace, that he was a spy man and that he was going to "get even" with Steunenberg.

Orchard said quietly: "I never made any such statement."

At this point the State took Orchard over for recross-examination. J. T. Nichols asked as to his interest in the Hercules mine, which he said he had sold in March, 1927. This was the time prior to the troubles in the Coeur

d'Alene in 1935. Orchard was there and left the State after the blowing up of the concentrator at Wardner. The copy of the letter, which was written in the morning by Deputy Sheriff Nichols was handed to Orchard and the contents were admitted by him. The letter read in effect:

"Dear Tom: I have received your letter and have sent that to Jack. I hope to hear from you as your movements, and that you will be successful. There was no signature."

Orchard said the name of your daughter now living in Canada?"

Orchard's face fell and his voice lowered.

"Olive," he said, almost in a whisper.

REMANDED TO PRISON.

"That's all," said Richardson, and the witness was remanded to the penitentiary.

Ed Boyce, for many years president of the Western Federation of Miners, was the next witness. Boyce testified that he was the author of the Miners' Magazine and that he was the official organ of the Western Federation of Miners. The first number of the magazine was published in 1905.

A number of magazines were offered as evidence for the purpose of introducing certain articles. Counsel for the defense was permitted to examine the magazines in the morning to inspect the articles, and court adjourned at 3:15 o'clock p.m. for tomorrow morning, with Boyce still on the stand.

"GUN MEN" FINED.

DEPUTIES ARE TOO FRESH.

(BY THE ASSOCIATED PRESS—P.M.)

BOISE (Idaho) June 15.—Charged with assault and battery, and disturbing the peace of the city of Boise, two of the noted "gun fighters" of Colorado, who are here acting as special deputies of the State, were today tried before a magistrate's court.

The prisoners were Claude Bartel and "Bob" Muldren. Bartel pleaded guilty and was fined \$50. Muldren denied to admit his guilt and his case attracted a number of spectators. He was also fined.

While Orchard was in the office of J. H. Hawley, leading counsel for the State, waiting to be called to the courtroom this morning, one of the witnesses for the State, John P. Roy, a miner from Silver City, attempted to pass Bartel, who was standing as guard at the foot of the stairs. Bartel told the city of Boise that he had business and the right. Bartel used language and was followed by a crowd of men. The miner was in danger of being badly used, when the Justice of the Peace ordered the crowd to disperse.

The magistrate, in passing sentence, said that the city of Boise was able to take care of its own affairs and that he would guard the rights of any visitors. He did not propose, he said, to permit the "gun fighters" to assume any rights that belonged to the officials of the city.

The incident aroused much interest and comment in view of the large number of detectives and special deputies who are here looking after the interests of both sides in the Haywood trial.

WOMEN IN LYNCH MOBS.

Lynch law almost claimed two victims in Illinois and Indiana today, only the timely intervention of officers saving the lives of the two men. In both mobs women took leading parts.

Joe Geister of Michigan City, Ind., had struck his wife with a brick in a drunken rage, and neighbors administered a most terrible punishment.

At this time the mob was almost drowning him in Lake Michigan, when they threatened to hang him, when the authorities dispersed the mob.

The other victim was Alfred Boudard of Assumption, Ill., who was accused of bigamy. A rope had been placed around his neck, when he was rescued. Three alleged mob leaders have been arrested.

FERRYBOATS ON SAN FRANCISCO BAY COLLIDE.

No Lives Are Lost, but Passengers, Including Many Women and Children, Are Thrown Into Panic. Prompt Action of Captains Prevents Disaster.

(BY THE ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, June 15.—During a dense fog on the bay this evening the ferry boats James M. Donahue and Casadero of the Sausalito line collided, but, fortunately, no lives were lost.

The James M. Donahue was damaged considerably, and after her passengers were transferred to the Casadero, she was towed to the side of the bay. While the boats were in collision there was great excitement aboard, but the officers and crews, assisted by some passengers, soon quieted the fears of the more timid.

The James M. Donahue left Sausalito at 7:10 o'clock, on her regular trip to this city, and the Casadero was en route to Sausalito, having left a short time earlier with Marin county commuters and other passengers from this city.

IN IMPORTANCE.Jap Ambassador Claims to Be
Superior Person.Announces That He Cannot

at White House.

[BY DIRECT WIRE TO THE TIMES.]
WASHINGTON, June 15.—[Exclusive Dispatch.] Viscount Aoki, the Japanese Ambassador, is the most superior personage in the diplomatic corps here, according to the views entertained at the Japanese embassy.

One of the most startling announcements that has startled official Washington was made at the Japanese embassy today by one of the officials, that, inasmuch as Viscount Aoki represents the sacred person of the Emperor of Japan, he is not accessible to ordinary persons. He cannot receive visitors. This was the information given a caller at the Japanese embassy today. When the official was informed that the Ambassador, representing Great Britain, France, Germany and other foreign nations were accessible, he was told that their positions were slightly different from that of the Viscount.

"While these Ambassadors represent the persons of their sovereigns," declared the official, with a winning Japanese smile, "their positions are different from that of the Viscount. He represents the sacred person of the Emperor. Of course, he cannot receive ordinary mortals."

Right on the heels of Viscount Aoki's claim comes the statement that he has lost favor at the White House. The Ambassador had not acted with discretion or delicacy in the matter of the San Francisco school trouble, and as a result President Roosevelt, lost patience, which was reflected by the attitude of the State Department toward the Viscount.

MUKDEN, June 15.—[Exclusive Dispatch.] Foreign Minister Hayashi, regarding the new administration of Manchuria, which is the outcome of Baron Komura's mission to China, in December, 1928, as the medium of settlement of existing differences between China and Japan, followed the victory of Mukden here and the two held a long consultation at Haushing today.

In regard to Japan's position and policy in Manchuria, Viscount Hayashi said to the correspondent of the Associated Press that he regretted many incidents which have taken place during the military regime, but expected a willingness to concede to China's just claims, especially in the matter of certain houses and lands, the contention concerning which constitutes a minor difference. Here Japan was unable to compromise, as she desired to be conciliatory, but it would insist upon adherence to the former interpretation of the treaty as in the case of the requirements of the Yalu timber company which China is not disposed to concede.

Coal Mine.

[BY DIRECT WIRE TO THE TIMES.]
SCRANTON (Pa.), June 15.—[Exclusive Dispatch.] A terrific explosion of gas occurred in the Johnson mine at Dickson City, north of Scranton, this evening, instantly killing seven men and seriously injuring many others. The names of the victims, all foreigners, could not be ascertained. It is thought one of the men walked into the gas area with an exposed lamp.

News of the disaster caused the utmost excitement, and brought crowds rushing to the scene. The mine is owned by the Scranton Coal Company, and it employs several hundred men. Company officials, led by the general superintendent, formed a rescuing party to fight the flames and save lives. The force of the explosion blew out pillars and doors and caused general havoc in the mine.

DES MOINES (Iowa), June 15.—[Exclusive Dispatch.] John W. Gates, a personal friend and business associate, P. Vincent Lewis of Chicago, spent last night in the Des Moines City Jail on a charge preferred by the Savoy Hotel management, to the effect that Lewis was seeking to defraud the house of the amount of his board bill of \$24.

Lewis has been here several weeks as the alleged promoter of a \$400,000 denatured alcohol plant. Asked to pay his bill, Lewis tendered \$200 check. Manager McFarland offered to keep the check until morning, but Lewis demanded the change or the check.

He was immediately locked up, and this morning telegraphed ex-senator Billy Mason of Chicago to come out and defend him. Lewis is very angry at being compelled to share a bum with drunkards, and declares he will immediately sue for heavy damages.

Observer at Mars Island Takes Into
Himself One of the Many June
Brides.

[BY DIRECT WIRE TO THE TIMES.]
MONTGOMERY (Mo.), June 15.—[Exclusive Dispatch.] Prof. J. J. See, United States Navy, the famous astronomer in charge of the naval observatory at Mars Island, Cal., was married here this afternoon to Miss Frances Graves, daughter of the late Dr. J. F. Graves, for many years one of the most highly esteemed physicians in Missouri.

The wedding was witnessed only by members of the immediate family and a few friends, and took place at the residence of the bride's mother, whose father was the late Booker Jefferson, a descendant of the Jefferson family of Virginia.

The bride was a student at the State University, and is a highly accomplished linguist. Dr. See was professor of the University of Chicago, and assisted in organizing the Yerkes Observatory.

In connection with the Lowell Observatory at Flagstaff, Ariz., and at the City of Mexico he undertook a tour of the southern hemisphere, and discovered about 600 new double stars.

Pickets Make Leaky Nosed Boy
Surrender, Noddy, but Picky Cried
Teacher, Eject Bussybody
Delegate from School-room When
Offers to Excuse Her Riding on Car.

[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, June 15.—[Exclusive Dispatch.] A great victory was won for organized labor today. At the Berkeley school, a little leaky-nosed boy with a torn hat and leaky nose was trying to fool Evening Bulletin on a long suffering public. He hopped into one of the cars and dangled his leaky nose attractively before a woman that she bought a paper.

Just as he hopped off the car again, one of the union pickets grabbed him by the arm. Two or three more gathered around, threatening him. He looked from one to the other in a frightened way.

Presently the child stumbled back onto the car-crying. He had a grimy smudge in his hand which he dropped in the woman's lap and took back to him. In another instance, however, organized labor did not triumph.

The cotter of immigrant Tveitmo, McCarthy, McCarthy and Cornelius—who have now taken charge of the strike, sent a delegate down into the Mission district this morning to bluff the principal of the school. The principal of the school had a little back-bone that he allowed this fellow to go about among the teachers asking which ones had been riding on the cars. All gave a satisfactory account except one woman. She is lame and couldn't find a bus, couldn't walk and couldn't be late to school. Wherefore, she rode the car.

The walk delegate listened to her story through, and then he said, "Well, I will overlook it this time."

The woman looked at him and gasped: "You will w-h-a-t?" She glared at him by the arm and limped over to the car and told him that one significant shove, out in the hall.

"You miserable, low, ignorant pup!" she scolded. "You dare to say a thing like that to me?" After one day of it the picketing seems to have languished. The publication of the full details of the strike, however, last Sunday undoubtedly chagrined and alarmed the labor-union leaders.

The Russian Finn, Mr. Furuseth, rushed into the Examiner this morning with a statement that he did not intend to go back to work until the union leaders were satisfied that the strike was over. He seemed to have no effect on the traffic. The cars were well filled even at 10 o'clock tonight. Union pickets stood on the street corners and made occasional limp attempts to persuade people from getting into the cars, invariably without effect.

One picket on Fillmore street called at a bank individual from the crowd and was knocked sprawling.

That their work is distasteful to most of the men who are striking, they go about it half-heartedly. They seem to appreciate that they have undertaken a hopeless and useless task and that nine-tenths of the people they are sent out to coerce view them with pity or scorn.

Chief Dihan was asked yesterday what protection he would offer to passengers who had to stand up in the cars, and he answered: "I don't know. Way until we get the complaints." The Chief answered: "Unless the strikers come back very soon, there will be no jobs for them. Outside platform men are coming in very fast. The company has taken on ninety men in two days. About 700 are now at work."

[BY DIRECT WIRE TO THE TIMES.]
LAWTON (Okla.), June 15.—[Exclusive Dispatch.] Quannah Parker, chief of the Comanche Indians, has accepted an invitation from Mr. Bryce, British Ambassador to the United States, to visit the Ambassador at his home in England, and the invitation has inspired the Indian chief, who is worth nearly \$1,000,000, to plan a visit to every nation of the world after he completes his stay with Mr. Bryce.

"I shall visit every nation of the world, and see the people the English gentlemen had told me something about," declared Chief Parker, at whose table Mr. Bryce dined last Sunday.

"Have you traveled much?" asked Ambassador Bryce of me. "When I said I had been to Washington and visited the President, he said, 'Why don't you try to see the world?' I concluded to see the world, and intend starting over the sea next day."

Quannah Parker is wealthy in lands and chattels, and Ambassador Bryce has induced him to spend a portion of it in becoming widely and broader than any American Indian has ever become before.

Soon to Be in Operation.

[BY THE ASSOCIATED PRESS—A.M.]
SAN FRANCISCO, June 15.—The California street cable line will resume operation within two or three days with non-union men at the old rate of pay.

The officials of the company are only waiting to finish some repair work at the lower end of the line before starting out their cars. A number of the old men, the officials claim, are ready to return to work.

"We are going to establish open shop on the California street line," President Stetson said last night. "We have had some men in our employ for a long time and we would prefer to have them run the cars for us again, but we will deal with them individually only. If they are not willing to come back on that basis we will not take them back. We cannot afford to pay more than the old rate, which was established by arbitration at 20, 21 and 22 cents."

"We will have nothing further to do with the Carmen's Union. The men individually are good men and we should prefer to have them in our employ again, but we will not deal with them as an organization."

[BY THE ASSOCIATED PRESS—A.M.]
SACRAMENTO, June 15.—At noon today all of the union men employed on the State Capitol were ordered to work on the repairs of the building on account of a controversy that has arisen between the Building Trades Council and Hayes & Condon, the contractors in charge of the brick and stone work.

These orders were issued shortly before noon by George Duffy, the agent of the Building Trades Council, who discovered that the sandstone that is used in the vestibule of the building was being cut by a non-union stone-cutter in the employ of Hayes & Condon. The firm furnishing the stone, it appears that the sandstone cutters, who are affiliated with the Building Trades Council of San Francisco, have been on a strike since last March, in an attempt to obtain a raise of wages per day, the strike originating in San Francisco.

REFUSE TO RETURN TO WORK.

[BY THE ASSOCIATED PRESS—A.M.]
SAN FRANCISCO, June 15.—Despite the threat of the International Brotherhood of Electrical Workers that unless the linemen return to work by 12 o'clock tonight, their charter will be revoked, Local No. 131, composed of telephone linemen, will not return to their jobs but will remain on strike.

The telephone linemen, who are sympathetic strike declared to be the cause of the telephone operators. They have also declared their intention of fighting the I.B.E.W. through the American Federation of Labor.

This is the last day of grace for the striking telephone linemen, according to officials of the company. If they do not go back to work by midnight today, the strike originating in San Francisco.

RICHMOND (Ind.), June 15.—[Exclusive Dispatch.] The Common Council of this city has issued an appeal to citizens to support the municipally owned plant in face of competition that is offering a cheaper service, on the ground that the plant is now "having the fight of its life." The plant was established five years ago at a cost of \$250,000 and the city is now asked to invest about \$50,000 for repairs and betterments in order that it may compete successfully with the private plant. Citizens are disposed to get the best of the heretofore advocates of municipal ownership are among those who are patronizing the competing plant. NEW YORK, June 15.—[Exclusive Dispatch.] While walking in the garden this evening after dinner at his home, The Rosas, Julius T. Rosenheimer, a wealthy resident of Pelham and president of the London Needle Company, was shot and killed by two men, who sprang from the bushes and attacked him with what the police think was a heavy, short-barreled sledge, such as is used in trimming stone.

Almost before Mr. Rosenheimer had time to cry out to his wife, his skull was crushed. Mrs. Rosenheimer fainted and late tonight she was able to tell only a very disconnected story of the tragedy.

Often The Kidneys Are
Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your whole body is affected, and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin by strengthening the kidneys. Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

LAND POLICY
IS DEFENDED.GOVERNMENT OFFICIALS TALK
TO DENVER CONVENTION.

James R. Garfield, Secretary of Interior, declared that Public Domain belongs to People of Entire Nation and is Not an Asset of Any Particular Locality.

[BY THE ASSOCIATED PRESS—P.M.]

DENVER (Colo.) June 15.—The public lands convention met in this city today for a three days' session. It got down to business this afternoon, listened to addresses by James R. Garfield, Secretary of the Interior, Richard A. Ballinger, Commissioner of the General Land Office, and Henry M. Teller, United States Senator from Colorado.

Permanent organization was effected by the selection of Dr. J. M. Wilson of Wyoming as chairman and Fred P. Johnson of Colorado as secretary. The reports of the Committee on Credentials and Organization, Rules and Order of Business were made, and the Committee on Resolutions was appointed.

The first speaker of the afternoon was the Hon. J. M. Wilson. He spoke in his discussion of the present land laws, a criticism of which he made, had been the cause of the conference. He said that the effect of these laws on the entire country and any particular section of the country.

The public lands, he said, were not to be sold. They belong to the people of the entire nation. He said he wanted to get the point of view of the people of the West. He welcomed criticism which was constructive, but he thought that criticism which was merely an attack without a suggestion was worthless.

Mr. Ballinger confined his address to the rebellion in South China received by the steamer Ad-vent yesterday state that Sun Yat-sen, who for years has been organizing an anti-dynastic movement in China, led a few days before the outbreak, and is reported leading the revolutionists near Swatow, having taken the field May 27 and opened operations by attacking the walled city of Kwang Kong, which was easily captured, and all officials were killed. Kaping and Lin Ching suffered similar fates.

The government troops on the island of Manwo were attacked on May 27 and defeated. The revolutionists then marched upon the Chow, which also was easily captured, and all officials were promptly killed. Thousands of refugees fled to Swatow, where foreign warships assembled to protect the refugees.

The National Army of Central Flower Kingdom, under Gen. Iseino Sun, following the capture of the island of the Taipings, they are posting notices that any of their followers who offer violence or death to people who do not oppose them will be summarily dealt with, but arms and ammunition will be supplied to those who join, none being compelled to do so.

Some foreigners are reported to be among the rebel officers. Many of the Chinese leaders are dressed in foreign style and have removed their queues. Japanese newspapers, commenting on the rising state that the accessibility of the district will prevent the rebellion from spreading widely, encountered much opposition during the Taipings outbreak, but all regard the outbreak as serious, as Sun Yat-sen has been organizing the movement for many years, and is believed to have the support of secret societies and other organizations throughout the empire.

The Jui Shippo, which prints dispatches from its own correspondent regarding the rebellion, says that with the well-equipped and amply armed troops of modern China, the revolution must be crushed.

[BY DIRECT WIRE TO THE TIMES.]
BERLIN, June 15.—[Exclusive Dispatch.] Galveston promises to become the objective of vigorous competition by leading German steamship companies seeking to control the emigration traffic as the result of the recent efforts to promote colonization schemes in the southwestern States.

For four years the North German Lloyd Company has been operating passage ships to Galveston. With the growing demand for labor in the South, and the inauguration of organized competition for this traffic, the attention of other steamship companies has been directed to the possibilities of the increase of immigration in the Texas port. The Hamburg-American Company is believed to be about to enter into competition for this traffic, the result being to push Galveston into prominence as one of the important ports of entry. BOTH PHONES EXCHANGE 337

The Broadway Department Store

Broadway, Cor. 4th., Los Angeles Arthur Letts

A PRICE UPHEAVAL IN WOMEN'S SUITS

For a Banner Three-Days' Sale

Every Suit in Our Vast Stock Up to \$40.00
To Be on Sale in Three Price Lots

\$10.00, \$15.00 and \$20.00

Los Angeles' greatest suit event for women begins today at the Broadway and continues Thursday and Friday, as long as quantities last. A bold, decisive clean-up of all our women's suits priced up to \$40.00. Silk jumper suits, silk Eton suits; suits of panama cloth, Eton and cutaway coat styles; pony coat suits and every other style favored by women right now will be included in this sale. For your convenience the entire suit and coat section will be given over to the sale, the selling force will be increased, and every garment will be marked in plain figures. Just three prices, that's all—\$10.00, \$15.00 and \$20.00. There's one thing to consider, however, in gauging these values and that is Broadway regular prices mean lower prices than you'll find anywhere for similar suits. Remember, this is not a mere smattering of suits, but a broad-gauged movement, including suits of all kinds. About 1000 all told. All colors and materials. Further details as follows:

Lot 1--Women's Suits

Includes Every Suit Up to \$20.00

Silk jumper suits in plain and fancies; silk Eton suits in plain brown, navy, gray, black and champagne; suits of panama cloth; Eton and cutaway coat styles; light checks, and a complete range of plain colors. You never saw \$10.00 buy such a splendid suit value. All sizes, second floor.

\$10

Lot 2 Women's Suits

\$15.00

Lot 3 Women's Suits

Worth \$35.00
and \$40.00

\$20.00

At this price are grouped all our \$35 and \$40 suits, consisting of fancy trimmed voiles, made over plain and checked and plaid silks; fancy net dresses in white and cream made over silk; suits of panama cloth, made very fancy. Others plain tailored silk suits, pony coats and jumper styles in plain and fancy, as well as black and colors. This is a remarkably low price. Hurry!

Special Notice!—Owing to the low prices at which we're selling these suits, we will be obliged to charge a small sum for alterations.

Two Big Embroidery Values at 15c and 6c

Odds and ends and broken lines of several assortments. Edges and medium wide insertions, some of them sold as high as 35c; none of them less than 12 1/2c. In two lots today at 6c and 15c. Aisle 2.

Oceanside Carnations

(15c and 25c Doz.)

And other fresh blooms from our flower department. Prices that you'll appreciate. Large bunches of sweet peas at 10c. We make a specialty of floral baskets and designs. Aisle 5.

Picture Framing

A specialty with us. We take pains to give satisfactory work. Prices are most reasonable. We have all sorts of sample mouldings from which you can choose. Bring your unframed pictures to the third floor.

GOVERNOR'S LIFE IS THREATENED.

ESCAPED CONVICT PLANS DEATH OF ILLINOIS EXECUTIVE.

Man Supposed to Be Lunatic or Criminal Whom Densen Convicted When He Was State's Attorney. Detectives at Once Are Detailed to Protect High Official.

WIRE TO THE TIMES.

CHICAGO, June 18.—(Exclusive Dispatch.)

Sensational reports of a plan to assassinate Gov. Densen were made today to Chief Shippy and Capt. O'Brien of the detective department.

The assassin was said to be Frank Norden, a convict who escaped from the Joliet penitentiary and arrived in Chicago to shoot the Governor.

As soon as the information was received detectives were hurried to the residence of the Governor.

Side of the Chief Executive at the Union League Club to act as a bodyguard as long as he remains in Chicago.

The police theory is that Norden either is a lunatic or a criminal whom the Governor convicted when he was State's Attorney.

Police records are being searched for a clue to the man's identity. The people who heard him making threats say he is a physical giant, heavily armed and handicapped with liquor.

LAWLER SAVES TIME.

SETS CASES FOR SAME DAY.

WIRE TO THE TIMES.

SAN FRANCISCO, June 18.—(Exclusive Dispatch.)

Drum and Eugene de Sabla, indicted for bribery alleged to have been committed by them as officials of the San Francisco Gas and Electric Company, were continued today by Judge Lawlor until Friday, to which day the cases involving Patrick Calhoun, Thorne, Mullally, Tiley Ford and William M. Roads, were also postponed. On that day the grand jurors will be examined the jury on all the cases at the same time, thus saving time and avoiding delay.

The examination of witnesses on the indictment of Louis Glass of the telephone company will be commenced before Judge Lawlor tomorrow.

NEGRO TO HANG.

ARIZONA SENTENCE AFFIRMED.

WIRE TO THE TIMES.

PHOENIX (Ariz.) June 18.—The Supreme Court today affirmed the judgment of the lower court under which William Baldwin, a negro, was sentenced to be hanged May 6. The case was referred back to Judge Naves of this district, for sentence.

January 21, this year, Baldwin assaulted and cut the throats of Mrs. Harvey Morris and her 8-year-old daughter, Arminia, in a ranch near Roosevelt, Gila county. He was captured and taken to Globe, where there

was an unsuccessful attempt to lynch him. He was then removed to Tucson, then to Solomonville, where he was tried for the murder of the child and convicted on circumstantial evidence. There were no eye-witnesses. The accused contended that his presence there was to beat off two Mexicans who attempted to assault the woman, but their tracks were never found and the story seemed unreasonable, even though the accused bore marks of violence, believed to have been self-inflicted as a basis of defense.

THIEVES SHOOT OFFICER.

CAR ROBBERS GET AWAY.

WIRE TO THE TIMES.

RENO, June 18.—(Exclusive Dispatch.)

In a desperate encounter with two box-car thieves last night, Officer Madley was shot in the left hand and had his right hand badly cut and bruised in trying to take a revolver away from George Stiles, one of the robbers. Madley was unable to catch the two men, and they are at present supposed to be hiding in the willows along the river bank east of the city.

The patrolman discovered the two thieves at work about midnight, and, waiting his chance, tried to effect a capture. He recognized Stiles, one of the men, as a prisoner held at the City Jail a few weeks ago on the same offense.

ANARCHISTS HOLD CONGRESS.

ROME, June 18.—The anarchists here obtained permission from the police to hold a congress, which is now going on. Many delegates are in attendance. The building where the congress is held is decorated outside with black and red flags. The programme, which has just been published, contains an affirmation that anarchists are bound to combat religion, which, like governments and capitalism, represents authority.

JAPS TO BUILD WHARVES.

WIRE TO THE TIMES.

YOKOHAMA, June 18.—Advices from Japan say that work has been commenced at Kobe to construct four great wharves, each 1200 feet long and 180 feet wide, with a space of 25 feet between each. The average depth of water will be 38 feet. Nineteen large steamers will be able to come alongside. The estimated cost is \$2,500,000.

BESANT HEADS THEOSOPHISTS.

KANSAS CITY, June 18.—Anna Besant of Adyar, India, the noted writer and lecturer on matters occult, has been elected world president of the Theosophical Society, to succeed the late Col. Henry Steel Elliott, formerly of New York City, who died in a cablegram received in this city today from London. Mrs. Besant will attend the annual convention in Chicago next September.

PROSECUTION COMES NEXT.

NEW YORK, June 18.—Dist. Atty. Jerome announced today the grand jury investigation of insurance companies has been concluded. His office, he said, will now prepare cases against indicted officials.

JURIST EMBARRASSED.

Judge Ladd Will Endeavor to Induce His Wife to Give Up Her Religious Mission.

WIRE TO THE TIMES.

DES MOINES (Iowa) June 18.—(Exclusive Dispatch.)

Pending the arrival of his wife from Minnesota, to answer the charge of disturbing the peace with her nightly mission meetings, in which members of the audience go into a state of trance and others chant in a weird way until after midnight, Justice Scott M. Ladd of the Iowa Supreme Court issued a statement today in which he declared that he had never aided his wife's mission and would use his influence to have the disturbed community relieved of annoyance.

Justice Ladd is painfully embarrassed over the affair and much sympathy is expressed for himself and family. Mrs. Ladd went to Minnesota yesterday to attend a Holiness meeting, but her family has telegraphed her, urging her immediate return in an endeavor to adjust the local difficulty. The authorities declare the mission must be suppressed as the epidemic of hysteria is distracting the whole community and mental breakdowns are becoming apparently frequent as a result of the meetings.

TO AMEND RITUAL.

Proposition Before Convention of Miners Promises to Provoke Bitterness Among Delegates.

WIRE TO THE TIMES.

DENVER (Colo.) June 18.—In the Western Federation of Miners' convention, today, an amendment to the ritual was offered by J. E. Colgan of Murray, Idaho, which aroused the opposition of a certain element and which promises to provoke bitterness among the delegates. The section amended reads:

"This union exacts no pledge or obligation from you that conflicts with the duty you owe to your God, your country or your fellow-man."

The amendment adds the line: "Or in any way interfere with your religion or political belief." It is predicted that the Socialist agitators will fight the amendment strenuously. The afternoon session was taken up entirely in discussing the contract system. The delegates who are also members of the Industrial Workers of the World deny the system which binds a man to work for a certain wage for a given time without the right to demand an increase. Other delegates just as strongly favored the system as to keep conditions settled and prevent repeated strikes.

Traveler's Samples of 25c

Lace Curtains at

Some very unusual samples of fine Brussels, Arabian, Irish Point

and Cablet net curtains. If they were full lengths, not a pair of

them would be less than \$4.50. You know what hurried buying

a sale of traveler's samples means; with such fine samples as

these, it will be more hurried yet. Fifth floor, today, while they

last, 25c.

There is a rich stock of curtains and draperies here. So fine and

beautiful and varied. You must see it to come in touch with

the real importance that Bullock's drapery section holds for you.

Prices are remarkably reasonable. Come to the fifth floor Friday.

**STOP WOMAN
AND CONSIDER**

First, that almost every operation in our hospitals, performed upon women, becomes necessary because of neglect of such symptoms as Backache, Irregularities, Displacements, Pain in the Side, Dragging Sensations, Dizziness and Sleeplessness.

Second, that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has cured more cases of female ills than any other one medicine known. It regulates, strengthens and restores women's health and is invaluable in preparing women for child-birth and during the period of Change of Life.

Third, the great volume of uncollected and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., of which we have from time to time being published by special permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Lydia E. Pinkham's Vegetable Compound

For more than 20 years has been curing Female Complaints, such as Dragging Sensations, Weak Back, Failing and Displacements, Inflammation and Ulceration, and Organic Diseases, and it dissolves and expels Tumors at an early stage.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass., for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham in advising. Thus she is especially well qualified to guide sick women back to health. Write today, don't wait until too late.

Made-to-Order
Diamond Jewelry

Our Diamond Department is organized on lines that take us away from the ordinary and the common in both Diamonds and Designs. In the gems we handle only the very finest examples, only flawless, absolutely perfect Blue White and Extra White Diamonds.

In designs we originate and manufacture in our own shops the finest and most fashionable pieces worn in this city. Our productions have a distinctiveness and expressiveness of design that commends them to the most critical and exclusive tastes.

The manager of our Diamond Department and head of our designers will take particular pleasure in talking over the advantages of such made-to-order jewelry with you.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Two Indictments Returned.

The United States grand jury presented a report to Judge Welton yesterday, in which two indictments were returned, but Clerk Owen of the District Court was forbidden to make them public.

Weeds Cover Road Signs.

Protests from the County Highway Commission reached the Board of Supervisors yesterday, stating that reports come from various parts of the county that the highway signs and guide-posts are obscured by the rank growth of grass and weeds. Every road overseer is to be ordered by the board to clear all obstructions, so that these signs may be easily visible to all travelers.

Narrow Escape for Three.

John Luckenbach narrowly escaped death in a collision with his automobile and a West Washington-street car. The accident happened at Mr. Luckenbach, accompanied by two nephews, Grover Thompson of Colton and Leonard Willis, was going to his home at No. 1029 South Alvarado street. As the car was crossing Figueroa street it was struck by car No. 48. The automobile was wrecked, but the occupants were uninjured.

No Permit Yet.

The Board of Supervisors has postponed for two weeks action on the application of L. Castine for a retail liquor license for Bartolo in Rios and precinct. While Bartolo is a "wet" precinct, Bartolo is so near Whittier, which is "dry," that it is said the granting of a permit to sell intoxicating liquors there is a thorn in the flesh of Whittier prohibitionists, as much as patrons of the saloons from Quaker town to the countryside place.

Proposed Change of Name.

Property owners on Center street, outside the city of Los Angeles, yesterday petitioned the Board of Supervisors for a change of name for Center street, from Melrose avenue to the mountains or foothills, to the name of Normandie avenue, the same as the city street bearing that name, and of which it is claimed that street is really a continuation. The petition was referred to Supervisor Eldridge, who will make a report at the next meeting of the board.

Will List County Property.

Yesterday the Board of Supervisors authorized the Title Guarantee & Trust Company to make a complete list of all the county real property except county roads. It appears this has never been accurately done and not long ago it was discovered that the officials had sold for taxes a piece of land that was actually county property. In another case it appears that property which was understood to belong to the county is really held by private persons. The makers of the new list are to get \$500 for the work.

Clearance Incorporation.

After almost half a day spent in discussing proposed townsite boundary lines, before the Board of Supervisors yesterday, the people of Claremont won a victory over the dissenting owners of orange groves within the territory, and the Supervisors adopted the original lines. Date for the incorporation election will be set at next week's meeting of the board. Claremont wants to become a city of the sixth class, and claims over eight hundred inhabitants within the territory proposed for incorporation.

Bids for Hospital Supplies.

Awards were made by the Board of Supervisors yesterday of contracts for supplies for the County Hospital for the ensuing year. The groceries will be furnished by Anderson & Chandler and Brockwell & Bradford, their bids being practically the same in the aggregate. The Sun Drug Company was the only bidder for drugs for the hospital. The County Farm and the Detention Home; and T. Vaché was the only bidder on the contract for whiskey, wine and brandy. Each got a contract. Simon Miler won the contract for meats for the hospital.

"Boost" for Poor Farm.

E. C. Harland yesterday made application to the Board of Supervisors for admission to the County Farm. He has been a patient at the County Hospital for the past six months, and is now convalescent, but unable to work. He admits that he has some property and several outstanding notes, and it is said that he told attendants at the County Hospital that this brought him enough income to keep him; but as Harland wants to live at the County Farm the Supervisors decided that they would allow him to reside there upon the payment of \$10 a month.

Board of Equalization.

On July 1 the County Supervisors will form themselves into a Board of Equalization, and will be in session until July 15. It is the intention of the board to give the first week of this period to the receiving of applications for a readjustment of tax ratings; and the last week will be devoted exclusively to working out the details of these applications filed at the beginning of the sessions. Heretofore the Board of Equalization has found it necessary to hold night sessions because of the lateness of filing of some of the largest applications. By the method to be adopted this year it is expected the work will be greatly expedited.

Not Yet, But Soon.

The county of Los Angeles has not yet acquired an anti-predatory ordinance, but the prospects are that it will soon be the possessor of such a law. Some time ago Supervisor Patterson had a conference with District Attorney Fredericks with the purpose of framing up an ordinance prohibiting flagrant flagging in the county. Later a delegation of Burbank people urged the adoption of an ordinance to have incorporated in his ordinance certain restrictions which he is desirous of securing, and it will doubtless be presented at the July session.

Lease District Election.

July 17 is the date set by the Board of Supervisors for the election of a board of trustees for the new San Gabriel levee district. The place of voting is to be the Artesia schoolhouse, and the election board will be R. H. McKinney, Clarence Dougherty and James W. Gillespie. The district heretofore has been under the supervision of the Supervisors, but legislation adopted by the State Legislature last winter made provision for placing such districts in the hands of a board of trustees, hence the call for this election. This is the district made famous by the straightening out of the San Gabriel River channel through a new course from a point above Artesia to tidewater on the J. Ross Clark sugar-beet ranch.

Salt Lake Souvenir.

The Magazine of American Progress for June is a special number, descriptive and illustrative of Salt Lake City, Utah. Its entire space of eighty pages and the cover is exclusively filled with Salt Lake. The whole is printed on elegant plated-paper, the inside being a cream tint and the outside a delicate pink. The half-tone pictures are splendid works of art, and the reading-matter is not so much laudatory as it is a startling array of facts and figures, designed to show the commercial importance of the city. The October number of the same magazine is to be devoted exclusively to Los Angeles, and if it does as well for us as it has done for the sister city, it will be a fine souvenir to send broadcast.

BREVITIES.

J. W. Frey has moved his stock of mantels, grates, tiles and andirons to his warehouse, corner Los Angeles and Twelfth streets, where can be seen the largest assortment of black and brass fireplace trimmings to be found in the United States.

Doiler Shoe Store Bulletin: Extraordinary shoe bargains! We move next week to top floor. This week all women's and children's shoes 10 cents the dollar; men's shoes, 11 1/2 Bryson block, Second and Spring.

TALE OF LONESOME MAN AND SPIRITS.

Sensational Trial, Which Involves Large Fortune, Is Based on Alleged Preying of Mediums on Mind of a Grieving Widower.

Mrs. Sarah Madison Whitsett, one of the plaintiffs in a suit involving half a million dollars, who testified yesterday in the Superior Court to the receipt of a remarkable letter.

A LETTER from a broken-hearted old man to his grand-daughter in the East, was read in the Superior Court yesterday afternoon, at the close of the first day of a trial involving a fortune estimated at from \$500,000 to \$1,000,000.

Mrs. Sarah Whitsett, grand-daughter of Charles G. Haddock, was on the witness stand in Judge Conroy's court, and testified that she had received from Los Angeles, falling of the death of her grandmother.

The letter, written by the old millionaire in the midst of his great grief, began with an affectionate greeting to "Dear Sadie" and goes on in simple acknowledgment of the receipt of a letter and photograph she had sent him from Indiana, where she was preparing for her wedding.

"The picture makes me think you've changed a good deal since I saw you," wrote the old man, and then the letter broke abruptly into grieving.

"I have lost my darling wife, and I know the fact has come to you, and I know some one was giving me medicine, but that was all, until I came to you."

The writer tells of the return of a dull consciousness, in which grief answered at him while he went gropingly about the work which was to be done. He had chosen a casket for his dead wife, and the dress in which she was to be buried.

"I had then put my picture in the casket. I arranged for the carriage, and when all was finished, all ready, I lay down. I could not attend the funeral. I was so tired, and I nearly died. My pulse rose to 120, and my temperature was 101 at 10 o'clock. The doctors did not think I could get well, but I did."

"HOW LONESOME I WAS."

"And, oh, how lonesome I was. But I do not think it is really gone from me. I think she is with me most of the time. She left you and Frank and me, and I will arrange that you shall receive your part in time to buy your wedding dress. You shall have the diamond ring, or the gold watch mother carried. Tell me which you would rather have."

The letter closes with an appeal to the girl to come out with her husband, as soon as the marriage had taken place.

And in the fall the girl had come out to Los Angeles, only to find that her husband had begun to intimate that she was not his wife. The girl, who had been told that her husband was a millionaire, found that he was a poor man. The girl, who had been told that her husband was a millionaire, found that he was a poor man.

TEMPEST IN TEAPOT. Charges Against Police Lieutenant Found to Be Largely of Rite by Others.

Lieut. C. G. Lenhausen succeeded in keeping calm of fire on the heads of his accusers during the course of his trial for less majesty before the Police Commission last night. The testimony showed that the charges are the outgrowth of political parties in the police department.

Seeking to have her husband recalled from Boyle Heights and reinstated at the University Station, the wife of Pauline Hartmeyer repeated some alleged conversations between Hartmeyer and Lenhausen. In these the lieutenant was represented as charging Chief Kere and Capt. Bradish with incompetence and favoritism. This she repeated to Capt. Bradish while interceding for the return of her husband to University.

Capt. Bradish questioned Hartmeyer about these matters, and later suspended Lenhausen. Last night the police board listened for three hours to a series of gossip that have been floating for months about University Station.

The unparliamentary "after" laid to Lenhausen's door consisted in saying on one occasion when department politics was discussed, "Well with the Chief, go to Doc Haynes. He'll turn the trick for you," and on another, "Capt. Bradish has grown childish. He lets Walter Wood run the University Station."

The testimony soon developed into a trial of Hartmeyer, rather than of Lenhausen. It was shown that the Civil Service Board testified that Lenhausen came to him to intercede for the appointment of Hartmeyer as sergeant. He thought the civil service rules were violated in the appointment of another officer as acting sergeant while Hartmeyer held a place on the eligible list.

Later, Hartmeyer came on the same mission. He told Haynes that in one but a Mass. call secure promotion in the police department.

Capt. Bradish testified that Lieut. Lenhausen is a strict disciplinarian and one of the most efficient officers in the service. The testimony of other officers showed that Lenhausen got into difficulties through trying to get Hartmeyer promoted as sergeant. All the alleged conversations occurred while Lenhausen was working in Hartmeyer's interest, and it was the Hartmeyer who sought to secure Lenhausen's dismissal by calling.

Lieut. Lenhausen has worn his stripes less than six months. Mayor Harper suggested to him that the charges were probably due to the fact that he suffered from "swelled head" shortly after his promotion.

The only damning testimony appears to be directed at Hartmeyer, who was peremptorily active in trying to secure promotion in the police department.

The commissioners took the case under advisement; they will make their report next morning.

SUPREME TEST NEAR AT HAND.

COLORADO RIVER SOON TO BE
AT ITS HIGHEST.

Strength of Embankments Built to Keep Back the Flood Believed to Be Sufficient. However High the Water May Rise—Over Seven Miles Wide at Needles.

The supreme test of the strength of the works built along the Colorado River by the Southern Pacific company to permanently turn the stream back into its regular channel will come within the next week. The following telegram to The Times from Tuma shows the conditions there last night:

"The Colorado River is threatening tonight. At 10 o'clock the government gauges registered 25 feet, and a rise of six inches before morning will test the strength of all that has been done to battle the flood. The intake is in no danger."

The chief engineer of the California Development Company, who built the dams and levees at the break of the Colorado, reported last Monday that the protective works were holding all right.

The report on Monday from Needles was that the river was within six inches of last year's highest water, and that the river was seven and a half miles wide opposite the town, a portion of the water running through old Spear's Lake, which remained after the river changed its course about thirty-five years ago.

When the first soldiers were brought up the Colorado to establish Fort Mojave, the main channel of the river was through Spear's Lake, but the river changed its course soon afterward, and no water has been running through the lake for about thirty-five years.

The present overflow, widening the river to seven and a half miles, has turned some water back into the old channel.

Where the Santa Fe bridge crosses the Colorado, the river is much narrower than at Needles, and an intake at Needles means a rise of several inches at the bridge and at Tuma.

The highest stage of any Colorado may be expected within a few days, and that will put a decisive test upon the levees on both sides of the river below Tuma and upon the works at Laguna dam.

SECURES BIG CONTRACT.

Los Angeles Men Will Build New Indian School on the Navajo Reservation.

The contract for the erection of the new Indian school, which the government will build on the Navajo Indian reservation, has been awarded to James H. Owen of this city. Mr. Owen left last evening for Washington to sign the necessary papers and execute his bond. The school will be built at Leupp, Ariz., a new town named for the Commissioner of Indian Affairs. It is situated eleven miles from Cañon Diablo. The buildings will be of masonry, and will be of sufficient size to accommodate 125 Indian children. The contract calls for the installation of a water system, sewers, a lighting plant and all necessary buildings. The government will spend upward of \$75,000 on the school.

DIED AT SANTA BARBARA.

Dr. O. B. Bird, for many years a resident of Southern California, died at his home in Santa Barbara, June 18. He leaves a widow and one daughter, a young woman. Twenty years ago Dr. Bird was a physician in Los Angeles and a writer on medical subjects. His last years were devoted chiefly to music, and many listened to his playing on the piano. YELLOW PERIL GRAVE IN CHINESE QUARTER.

Battle, Murder and Sudden Death Threatening Through Outbreak of Fierce Tong War, Inspired by Bad Men From the North.

CHINATOWN is in the throes of a long war which bids fair to prove more serious than anything of the kind that has taken place within the little settlement of yellow men for years.

Yesterday morning at an early hour long men broke in the door of one of the houses in the new Chinatown, and attempted to murder. Later, a Chinese woman who had been friendly to the Hop Sing Tong. The woman heard the hatchmen as they "fiddled" open the door, and began to scream. Several girls who were with her also set up a frightful yelling, and the guards of the district, coming up on the run, put the Hop Sing high-blinders to confusion.

Later in the day a fight occurred between the long men in one of the

The life of the woman shown in New China alley was attempted by three men yesterday morning. At the top is Lee Fook, dead local representative of the San Francisco highbrow companies. The Chinese in the group are reading morning bulletins put out by the tong. Costs of mail have been forced by the Hop Sing.

narrow alleys between Marchmont and Abbeville streets, members of the Hop Sing Tong, occupying by flashing up a side stairway and gaining a friendly shelter.

On every corner in the yellow district are posted the war bulletins of the tongs. On every corner, yesterday afternoon, frightened Chinatown read these bulletins and kept away from the scene of trouble as much as possible.

PREPARE FOR WAR.

Yesterday morning a score of Chinese visited the hardware stores at Los Angeles and the pawnshops and purchased revolvers. These they kept with them, hiding them in their long sleeves or in the waistbands of their trousers, where the hose blouse conceals the fact that a weapon is hidden. All these revolvers were of large caliber. The Chinese did not state their reasons for arming themselves, but one glances at the disturbed condition of the district was enough to show the cause.

The Hop Sing Tong is alleged to have started the trouble. This long is the most warlike of any in the Chinese settlement. Four years ago, when the tong trouble came to a head, the Hop Sing created such a disturbance that the other tongs all bandied against them. During the past four years three members of this tong have been afraid to put their heads out of the tong house. Their place is at No. 539 North Los Angeles street.

Inside the walls and stairways form a network that to capture them would be impossible. One place in the building presents a solid front as it would, but it is made of paper, cunningly fitted to represent a wall and offering an opportunity to escape.

A dozen other Chinese were arrested and held on suspicion. Some were found to be without their "show cards" (certificates to enter the United States) and these men will be deported.

According to the statement of prominent Chinese merchants, the local Chinatown is not as the settlement built down from San Francisco. The latter, upon their arrival in Los Angeles, [Continued on Fourth Page]

 Gorkin, and that he could not resist from it.
 After half an hour or more the quartets of "Superior" emerged from their conference, each face wreathed with smiles, but the only announcement made to the public was:
 "We have laid down a line of action which is satisfactory to us, and we believe will be satisfactory to the public."
 Everybody has a guess coming.
HUSBAND NEEDED.
 Mrs. H. C. Leatherman was removed from the Plaza House, No. 514 North Main street, last night, to the County Hospital, because of illness. Five months ago she came here for her health. The police are attempting to locate her husband, who formerly lived in St. Paul, Tex.
STORY OF UNPAID BILLS.
 C. E. Griffith was arrested last night because the police allege, he refused to pay his board bill and mortgaged his room at No. 22 California street. He is also accused of owing a hotel for board.

Girls' Dresses Reduced a Fourth
 In a Broadway window are displayed a few of the many sorts of stylish wash dresses for girls between 8 and 16 years old, which we propose to sell for a fourth less than they're worth.
 You'll find pretty one-piece and jumper styles in neat checks or plain French gingham; sailor styles and smart suits of chambray and pique; some white, others in fast, durable colors.
 There is also in the window a hint of the dainty dresses, hats, etc., that we carry always in stock for babies—the simplest, as well as the most elaborate that any mother's heart could desire, and priced so inexpensively that home sewing seems nothing but needless drudgery.

High-Grade Dress Goods Bargains Today
 Choice of staple black dress goods of the very highest grade, at a price you'd expect to pay for cheap, slazy materials.
 These black goods consist of fancy Venetians, rope panamas, satin finish French serges, chevrons and fine velvets, in children weight; also handsome black stuffs, showing invisible checks or plaids in the weaves—every piece this season's production, and not one usually priced at less than \$2.50 a yard; many well worth \$3—special prices now 85c yard.
 Staple gray panamas in three shades; beautifully fine goods, for skirts or gowns—how this season, no old goods of past favor; worth \$1 and \$1.25, now 75c.

Baldwin Refrigerators for Government Hospitals
 ...Twenty-Second Year...
 The Baldwin Refrigerator Company has been notified that its proposal to furnish the U. S. public health and marine hospital service with refrigerators for the current fiscal year has been accepted, making the twenty-second consecutive year that this important branch of the government service has adopted the Baldwin dry air refrigerator for use in all its hospitals and quarantine stations. So highly were these refrigerators regarded by the surgeons and stewards as far back as 1885—that one of them was included in the government exhibit at world's exposition, New Orleans, marked "Standard refrigerator for hospital use."—Burlington Free Press, August 14, 1904.

HAY BOX IDEAL OVEN.

COOKING FOODS

How to be Satisfied or Refused

How to be Satisfied or Refused

How to be Satisfied or Refused

away all men and enjoying themselves or toiling, as the case required, until hunger reminded them of the flesh pots, which were drawn from their cooking places and the meal was ready.

In these days of haste we rush our food to the cooking point over hot coal ranges, gas or kerosene stoves. It boils, bakes, or fries in a few minutes, and is served. The use of the hay box or fireless stove in cooking such foods as require slow cooking saves the question of heat in summer and coal, wood or gas at any time. It also gives freedom from watchfulness and supplies more nutritious foods.

The hay box or fireless stove can be made from any tight wooden box, half barrel, barrel, or any wooden pail with close-fitting cover and depth enough for a layer of hay three or four inches in thickness, room to sink one, two, or three jars, with space for a packing of hay around them and a pillow of hay over them. If the box be first lined with paper, the hay laid in and the jars set in place, the hay

can be pressed compactly around the jars, and when they are removed the places or nests will be formed. A pillow of hay loosely packed so it can be disposed in the corners and sides of the box must fit inside the cover, so that it can be closed tightly.

The best utensils for cooking are stone jars with covers, or the brown cooking bowls which come in sets. Over these plates or tin covers can be fitted, and they will do very well. These jars hold the heat a long time and are easily cleaned and are much better than metal vessels, as they will not rust nor corrode; still, in an emergency, tin cans or pans can be used, but are not reliable, as they conduct the heat instead of holding it.

In preparing food for the hay box it is to be made boiling hot and left to boil for several minutes, according to the materials to be cooked. In all cases the heat must fully permeate the meat or vegetables, as the force of the heat is to serve for the further cooking. The time for cooking over the fire depends on the tenderness of the meat and the amount. For a three-pound piece of meat thirty minutes should

be allowed; for vegetables and cereals all the time required is just enough to have them boiling from three to five minutes.

When ready for the box, the jars should be covered with cloth over which a paper should be wrapped and then quickly settled in place and covered up with the pillow. When two or more jars are to be placed in the box they should all be ready at one time, as the box must not be opened to place more jars after the first closing. If there are other foods requiring less time another box can be utilized for the purpose. When the jars are settled, the pillow is to be tucked closely all about the edges and sides of the box. The cover closed over it and it will expedite the cooking if a rug or some close covering be disposed over the box.

Anything that can be steamed or stewed can be cooked in the hay box and be far more nutritious than when hurriedly boiled and hurried on a hot stove while steam and odors fill the kitchen and find way to other parts of the house. The tough old hen can be easily left in the hay over night, with

the result that she has preserved her tenderness and can be noted on the bill of fare as "spring chicken."

Rices can be cooked in forty minutes. Rice can be cooked in a hay box, and will reach a size and softness not given by ordinary cooking. Graham or corn meal mush will reach perfection in the same time, and oat meal attains a relish if, instead of allowing about a half-hour to the cooking, it is left in over night, when it will be a delicious jelly for the breakfast.

Several months' experimenting has conclusively proved the value of the wooden stove. It is a boon to the working woman who does light house-keeping, and, for reasons of economy, lives on baked stuffs or canned goods requiring only a hasty heating over a lamp stove or gas jet. With a hay stove, if it be no more than a wooden pail holding a quart jar (costing a cent) which she can stow away in the hay at breakfast time with an appetizing stew left to cook for the noon hour, she will be enabled to provide more nourishing food than all the others will supply. Over night the cereal for breakfast, and a stew of fruit for the supper, can be left to await her coming with the assurance that no

time need be wasted in getting the meal so much desired at the end of a hard day's work.

Meals for the laggard, usually left to dry away in an oven or kept at an evaporating state of warmth, just too cool to be palatable, can be set in the hay and be fresh and hot for the hungry person. The picnic party can start the meal, load the box in the wagon, and when the hungry time comes will have an endless and luscious meal from a fireless stove. The camper-out need have no heavy iron kettles to clean, jars can be set in the kettles until boiling hot, transferred to the hay, and the cook, who usually stays at camp carrying the departing party, can join in the hunt or stroll, and coming back find the meal all ready. As no more water is allowed than is needed to cook the food, there being no evaporation, there is no replenishing of water nor consequent loss of flavor by seeping steam. One thing can be remarked with satisfaction--"hay" cooking is done away with, as the boiling away of water is an unknown quantity and there is no opportunity for its addition.

For the homeseekers who have to make

ready a dinner at night during warm weather the box is a godsend. A half-hour or so of heat is all that will be required in the first cooking, and then can place the stew, soup, cereals, and a steamed pudding in the box at from four to six hours ahead of the required time, and get away from the heated atmosphere of the kitchen; then when time comes to serve the meal there is no heating up over the stove, making gravies or performing the last rites over a dinner cooked on the range. The coffee or tea needs little heat, and instead of being too tired and warm to eat, the housewife can enjoy the meal.
